Profile

Recent USC Master of Architecture graduate with a background in business and interests spanning architecture, interiors, and landscape. Interested in the relationship between built form, interior space, landscape, and the broader environment, with experience in design development, visualization, modeling, and architectural representation. Drawn to thoughtful, context-driven design across a range of scales and project types.

Architecture Experience

Maly Architects — Architectural Intern

Los Angeles, CA

Aug 2022 – Aug 2023

Supported architectural design development and problem solving across active building projects. Assisted with project coordination, design development, and documentation related to city-approval processes.

MoMo Design — Architectural Intern

Los Angeles, CA

Aug 2019 – Aug 2020

Produced 3D models, floor plans, and elevations for design studies and client presentations. Supported multiple phases of the architectural design process and day-to-day office workflows.

Selected Design Work

PLAY BALL!

2026

Oakland Coliseum Adaptive Reuse Thesis · USC M.Arch

Reimagined the Coliseum as affordable housing, public landscape, and ecological infrastructure while retaining its concrete bowl as an architectural armature.

Integrated housing, circulation, landscape, and phased adaptive reuse into a proposal for the venue's transition to everyday civic infrastructure.

THE SCULPTED STADIUM

2026

LA28 Olympic Venue · USC M.Arch

Re-conceived the venue as a continuous sculpted landscape where softball and BMX Freestyle occupy adjacent gradients of play and spectatorship.

Relocated existing site functions below grade to create a public 'thrill zone' for circulation, gathering, and collective spectacle during and after the Games.

Additional Experience

Real Estate Development Associate

Sep 2025 - Present

BF RoddCo · Full-time · Los Angeles, CA

Support residential real estate development projects through property research, site evaluation, project coordination, and general development activities. Gain hands-on exposure to the development process while building an understanding of how design, construction, feasibility, and real estate considerations shape projects from early planning through execution.

Payless Foods

Aug 2022 - Aug 2023

Clerk / Computer Technician / Accounting · Los Angeles, CA

Oversaw receiving and updated shipment information in the computer system.

Maintained invoices and product pricing, helping keep records accurate and current.

Spirit Jersey — Design / Operations Intern

May - Jul 2019

Los Angeles, CA

Worked across quality control, design, factory operations, and inventory management.

Assisted with design and color coordination for apparel.

Vuori — Seasonal Sales Associate

Oct - Dec 2021

Newport Beach, CA

Supported product sales and customer service during the fast-paced holiday season while collaborating with the store team.

Camp Menominee — Camp Counselor

Summers 2017 & 2018

Eagle River, WI

Supervised campers ages 11–14 and helped manage daily routines, activities, and a positive cabin environment.
